

Please cancel claim 46.

Please add the following new claims:

1320. (new) A method according to claim 27, wherein the therapeutic agent is selected from the group consisting of mechlorethamine, procarbazine, prednisone, dacarbazine, a nitrogen mustard, an intercalating agent, an antimetabolite, a radionuclide, a vinca alkaloid, an antibiotic and a toxin.

1452. (new) A method according to claim 50, wherein the therapeutic agent is a nitrogen mustard, and the nitrogen mustard is selected from the group consisting of L-phenylalanine nitrogen mustard and cyclophosphamide.

152. (new) A method according to claim 50, wherein the therapeutic agent is an intercalating agent.

162. (new) A method according to claim 52, wherein the intercalating agent is cis-diaminodichloroplatinum.

172. (new) A method according to claim 50, wherein the therapeutic agent is an antimetabolite.

182. (new) A method according to claim 54, wherein the antimetabolite is 5-fluorouracil.

192. (new) A method according to claim 50, wherein the therapeutic agent is a vinca alkaloid.

202. (new) A method according to claim 50, wherein the vinca alkaloid is vincristine or vinblastine.

212. (new) A method according to claim 50, wherein the therapeutic agent is an antibiotic.

222. (new) A method according to claim 58, wherein the antibiotic is selected from the group consisting of calicheamycin, bleomycin, doxorubicin and daunorubicin.

232. (new) A method according to claim 59, wherein the antibiotic is calicheamycin.

242. (new) A method according to claim 50, wherein the therapeutic agent is a toxin.
